Our beloved Center started to see a flurry of activities after a lull of over 1 year. Things were picking up until the Omicron variant hit. In spite of it, we had 16 events. The events were 6 non-member rentals and 1 member rental; the rest were ZAH community events like the AGM, Navroz function, Youth Fund Raiser, Ghambar, Carnival, Sports Day, Youth Christmas Party, Youth Camp and New Year's Eve Gala to name a few.

In February we had a hard freeze in Houston which caused water damage to the hall and the dance floor had to be replaced as well as ceiling tiles. BMSC worked alongside BMC and other community volunteers to have the dance floor replaced.

We had to replace the two food warmers. They were infested with maggots! Unfortunately, some food had been left behind which caused this infestation. It was discovered by one of our party planners who brought a potential renter to see our facility. We have now replaced the 2 warmers with 1 as we have ample ovens to keep the food warm and this also gives us more space in the kitchen.

Towards the end of 2021 we had to increase the rental fees as to absorb the increase in the security fees.

Thank You.
